

Tax Update Service

Keeps your Payroll Legally Compliant

Organizations are required to update all the taxes to stay in compliance with government regulations. Implementation involves I.T. business users and compliance management team to review the updates, and its effects on the environment. Payroll tax updates provides necessary changes to PeopleSoft objects and tax rate tables to stay in compliance with Federal, State and Local regulatory changes.

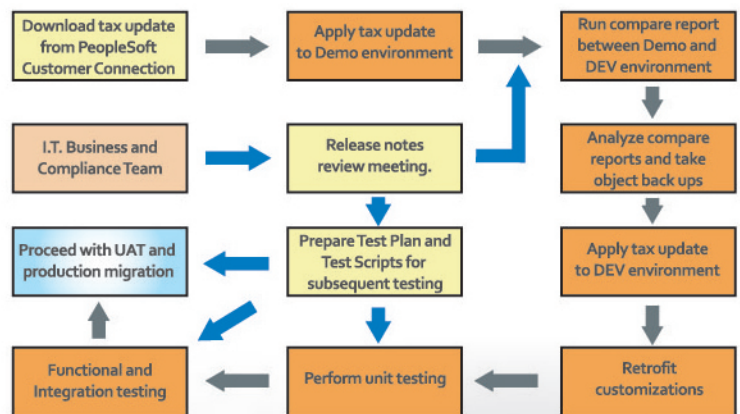

Service Offerings

- Fully functional year around service to manage customer’s tax updates
- Build and maintain calendar of tasks to use as a template for annual business process for tax update releases
- Analyze and implement tax updates, bundles and patches to customer’s PeopleSoft Payroll instance
- Pay Check comparison before and after for each implementation using automated test cases
- End to end and customization specific testing on each release

Key Differentiators

- Outsourced business function for better control
- Fixed price/annual contract is a cost effective approach for customer
- Tailor made development process to suit customer’s unique requirements
- Use of coding standards, templates, check lists and reviews
- Automated and Manual test cases are specific to each tax update
